

## India Class

Our topic this term is 'Carnival of the Animals. In Literacy, we have been learning to use adverbs, conjunctions and contractions in our writing. We wrote detailed descriptions of two animals which had been crossed together. Our descriptions included these word types.

In Maths, we have been learning about the number of faces, edges and vertices of some 3D shapes.

In Science, we have been learning about how animals change as they grow. We found that sometimes baby animals look like their parents and sometimes they do not.

We have studied Aboriginal Art, which comes from Australia. We drew around Australian mammal templates and used cotton buds to dot paint our own paintings in the style of Aboriginal Art. They looked very effective!

We have had an amazing time at Forest Schools, building dens, lighting fires and cooking our own food. We have even made our own food web!

What an exciting half-term it has been!
