

## 'St. Mary's Garden Goodness' Year 6 Business Enterprise Scheme

Lately in our Business Enterprise Scheme, we have been researching prices that other companies use for their produce, such as courgettes, carrots, strawberries, plants and tomatoes; all items we are hoping to grow. With that information we deducted a certain amount of money for the costs and set that around our prices.

We decided we would need a starting amount of at least £600 to get a large polytunnel. We are hoping that Miss Williams, the school's business manager, will give us a loan for this part of the project. We will be presenting a business plan to her next Wednesday and trying to persuade her to loan us this money. We are also trying to get local companies to sponsor our project. Children in our Marketing Department have been making a list of companies that might possibly sponsor our business.

Finance and Accounts Departments have found out about the cheapest seeds and determined how much we would need to spend in terms of seeds (in total, around £80). Purchasing Department assisted Finance and Accounts in chasing down the best deals. Production Department began planting any seeds we already had and Personnel Department began writing up the contracts for everyone.

## The Magistrates visit

On Tuesday John Stoy came to visit Italy and New Zealand classes to talk about what it is like in court and who is involved in making the decisions. We then did a court role-play. It was very interesting but we were a little bit apprehensive as it seemed like we were in a real court and had done something wrong!

## Goodbye Miss Waring

This Friday Miss Waring is flying out to Sierra Leone. She is going to teach out there for one week! We hope she has a lovely time.

## No School!!

Next week is a very well deserved half term which means we have no school for one week! Consequently Ben and I will not be able to write the year 6 blog that week. We hope you have a brilliant time and stay safe and we look forward to seeing you in a week's time.
