

Weald Workshops!

The Year 6 children have been lucky enough to visit the Weald for some DT food workshops. Next term they will experience Science!

Mrs Roland led our sessions making delicious savoury muffins.

We were shown how to turn the oven on and work with the equipment safely.

We grated carrots, courgettes and cheese and mixed with butter, some milk, an egg and flour.

We spooned the mixture into a well-greased baking tin and popped them in the oven to bake.

Next, we washed up! (Yes, we can do it!)

When it was time to take the cakes out of the oven, we used a flat knife to gently ease the muffins out of the tin.

And the last part... you guessed it... the taste test!!

But, alas, no photos of this joyous event as we were all too busy eating the wonderful muffins!! (Sorry)
