

## India Class Spring Term Homework

Our Topic for the Spring Term is 'Sensational'. Please find below a homework topic grid linked to this. Please choose one task from the grid to complete each week. Please also practise reading and spellings each week and complete the challenges set on MyMaths every other week.

Literacy	Write a senses poem or acrostic poem about using one of your five or all of your five senses.	Guide a family member round a room blindfolded and write instructions so that you can then shout these instructions from outside the room and still guide them round.	Grab some random things and put them in a feely bag. Put your hand inside the bag to really feel what these items feel like, then write a description of each one. Can somebody else in your family guess what they were just from the description?	Do some research on one of the senses and write out it for a show and tell.
I.C.T	Make a poster using Powerpoint or Word about the senses. Try copying and pasting images and typing up your information.	Play guess the sound: <a href="https://www.youtube.com/watch?v=nlm4h79JZso">https://www.youtube.com/watch?v=nlm4h79JZso</a>	Try learning to touch type for free with this fun resource on line, suitable for India class: <a href="https://www.typingclub.com/">https://www.typingclub.com/</a>	Research animals on line or in books that rely on their sense of smell or touch because they have no or poor eyesight.
Creative	Play the senses guessing game to guess the food you are eating using smell and taste as your only guide.	Make your own instrument to experiment with the different sounds that you can make.	Imagine for a day you couldn't use your sense of hearing, how would you communicate? Design a way of communicating with somebody.	Create a picture using only different shades of blue or red or any other colour of your choice. Then describe how this picture makes you feel.
