

Hello! I have been asked to write a blurb about myself so that you have a little more insight into me as Class Teacher and SENDCo at St. Mary's CofE (Aided) Primary School.

I have always wanted to work with children. I have a passion for supporting children to develop emotionally, socially and academically and reach their full potential.

I graduated with a degree in Psychology from the University of Nottingham and shortly afterwards, completed my PGCE at Brighton University. A few years later, I completed the National Award for Special Educational Needs Coordination due to my particular interest in supporting children with Special Educational Needs.

I have enjoyed working at St Mary's for six years as a Class Teacher and for two of these, I have also worked as the School SENDCo. I currently work as India Class Teacher each morning and SENDCo each afternoon.

Outside of school, I enjoy swimming, dancing and travelling. I am keen to run a marathon one day, but I haven't got there....yet!

I look forward to meeting you 😊

Kind Regards,

Miss Wilkins
