LO: adding and subtracting capacity

Please use the link below to access the White Rose online lesson and then complete the activity sheets provided. Week 12 (w/c 13th July) Lesson 2.

<https://whiterosemaths.com/homelearning/year-3/>

1.

To make Summer Punch for 2 people:

- 300ml of pineapple juice
- 250ml of orange juice
- 500ml of lemonade

How much liquid is used in total to make Summer Punch for 2 people?
How much orange juice would be need to make enough for 4 people?
Would a 1/ bottle of lemonade be enough to make drinks for 6 people?

2. Tess keeps a record of how much milk she has in her café.
Work out how much milk is used for each order.

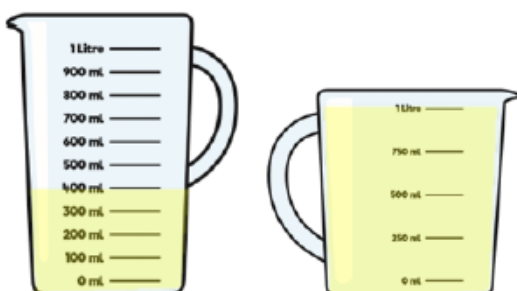

Amount of milk to start	Amount of milk used	Amount of milk left
1 l and 430 ml		1 l and 100 ml
1 l and 100 ml		890 ml
890 ml		545 ml

3. Stanley is making drinks using these jugs.
Each drink is 125 ml.

Stanley

If I make three more drinks using jug 2, both jugs will have the same amount of juice in.

Is Stanley correct?
If not, how much juice will be left in jug 2?
